## ADVISORY

The Oklahoma Corporation Commission has found “reasonable” the plan by Oklahoma Gas & Electric (OG&E) to install dry scrubbers on both coal-fired generating units at the Sooner Power Plant in order to meet the Environmental Protection Agency’s regional haze plan requirements.

OG&E will have to file a new application after installation for cost recovery.

The Order approved today can be found at <http://imaging.occeweb.com/AP/Orders/occ5278724.pdf>.

A statement on the matter from Commissioner Dana Murphy can be found at <http://www.occeweb.com/News/2016/04-28a-16A%20Forced%20Choice.pdf>
