USC Section 60117

• (c) – Entry and Inspection
  • By displaying proper credentials, inspectors have the right to enter the premises
  • Inspect records and property
  • Reasonable time and manner
Safety Regulations Applicable to Natural Gas Systems

49 CFR 192 - The Minimum Federal Safety Standards Applicable to the Transportation of Natural Gas and for Pipeline Facilities Used for this Transportation
Safety Regulations Applicable to Natural Gas Systems

• Authority: Natural Gas Pipeline Act of 1968 (49 U.S.C. sec. 1671 et seq.)

• Re-Authorized by the Pipeline Safety, Regulatory Certainty, and Job Creation Action of 2011
§190.203 Inspections and Investigations.

Upon presenting appropriate credentials authorized to enter upon, inspect, and examine, at reasonable times and in a reasonable manner, the records and properties of persons to the extent such records and properties are relevant to determining the compliance of such persons with the requirements of 49 U.S.C. 60101 et seq., or regulations, or orders issued there under.
§190.203 Inspections and Investigations.

Inspections are ordinarily conducted

(1) Routine scheduling
(2) A complaint from a member of the public
(3) Information obtained from previous inspection
(5) Pipeline accident or incident
(6) Whenever deemed appropriate
How Do I Prepare for an Inspection?

What do I do?
Where do I begin?
What do I look for?
What’s the inspector going to look for?
What an inspector will focus on may vary depending on their personality, work background, or recent industry events.

Let’s look at a few misconceptions about inspectors.
Different Types of Inspectors
Different Types of Inspectors
Different Types of Inspectors
Where Do I Begin?

• Think like an inspector.
  – Think about code requirements and not just company requirements.
  – Make sure you have current operator name, operator official, address, and contact information.
Where Do I Begin?

- Think like an inspector.
  - Make sure you have a complete, up-to-date operations and maintenance manual.
- Does the manual have the right company information?
Where Do I Begin?

- Think like an inspector.
  - Make sure you have a complete, up-to-date operations and maintenance manual.
- Does the manual have procedures and processes to instruct someone how to safely perform operations and maintenance tasks your system, and do all employees have access to it?
Where Do I Begin?

• Think like an inspector.
  – Make sure you have a complete, up-to-date operations and maintenance manual.
• Does your manual have procedures for reporting accidents / incidents and safety related conditions?
Where Do I Begin?

• Think like an inspector.
  – Make sure you have a complete, up-to-date operations and maintenance manual.
• Does the manual have procedures for handling emergencies?
  – Emergency response procedures.
  – Actions directed toward people first.
Where Do I Begin?

• Think like an inspector.
  – Make sure you have a complete and up-to-date damage prevention plan.
  – Make sure you have a complete and up-to-date public awareness plan.
• Does your plan meet the requirements of API Standard 1162?
Where Do I Begin?

- Think like an inspector.
  - Make sure you have an up-to-date operator qualification plan.
  - Make sure you have an up-to-date drug and alcohol plan.
Where Do I Begin?

• Think like an inspector.
  – Make sure you have all of the records required by the code for your system.
  – Make sure company records contain all code required information for your system.
Where Do I Begin?

• Think like an inspector.
  – Make sure records are complete and up-to-date.
    • What work was performed? (New Const., Repair, O&M Task)
    • Who performed the work? (Company or Contractor) (OQ)
    • When was the work performed? (Date & Time)
    • Where was the work performed? (System, Line Segment, Station)
How Do I Go About It?

• Use the tools and inspector will use.
  – Use a current and up-to-date code book.
  • Some code books are only updated once a year and are out of date when they are printed.
  • Download the most current code book from the PHMSA website.
How Do I Go About It?

• Use the tools and inspector will use.
  – Use a federal inspection report sheet.
    • You can download a copy of any of the federal inspection sheets from the PHMSA website.
    • Standard, Specialized, Accident, and IMP inspection sheets are all available on the website.
How Do I Go About It?

PHMSA Form 1
Standard Inspection Report of a Gas Transmission Pipeline

PHMSA Form 2
Standard Inspection Report of a Natural Gas Distribution Pipeline

PHMSA Form 3
Standard Inspection of a Liquid Pipeline Carrier
