Continental Resources appreciates the efforts of the Oklahoma Corporation Commission and its Staff in the development of the limited scope of proposed emergency rules to implement provisions of SB 867. In this regard, Continental supports the draft language contained in the July 27, 2017 proposed emergency rules for Title 165 Chapters 5 and 10 with consideration of the comment expressed at the August 8, 2017 Technical Conference by the Oklahoma Independent Petroleum Association that the provisions of 165:5-7-6(k) applies to horizontal spacing units that exceed six hundred forty (640) acres plus tolerances and variances pursuant to subsection (c) of 52 O.S. 87.1.
