

Surface Owner Permission For Land Application
 OAC 165:10-7-19(f)(2)(A) and 165:10-7-26(g)(2)(A)

I, _____, (SURFACE OWNER) hereby give permission to _____, (OPERATOR) or his contractor or agent to land apply:

- Water based drilling fluids and/or cuttings
Initial _____
- Petroleum hydrocarbon-based drill cuttings
Initial _____
- Soils contaminated by salt or crude oil
Initial _____

under the regulations of the Oklahoma Corporation Commission to _____ of _____ acres of property of which I have legal ownership.

This property is described as follows:

1/4	1/4	1/4	Section	Township	Range	County

Furthermore, if the land application is of contaminated soils or petroleum-based drill cuttings, then the land-applied materials shall be incorporated into the soil by disking or chiseling during or immediately after application to a minimum depth of two times the depth of applied materials; however, if any contaminated sandy soil is applied to any clayey soil, incorporation shall be to a minimum depth of four times the depth of the applied materials. Tillage of grassland may not be necessary. If materials are land-applied on grassland, a reduced application rate may be necessary.
